Your personal copy of this PDF. of a study on the real cost of food. I am sure that the recipe for honey is widely available on the internet, and the packaging is as raw as possible. Not only there are many recipes available on the internet, but there are also many websites, like www.allrecipes.com and www.recipezaar.com that provide recipes, and they also provide you with the raw ingredients. Thus, you don't need to spend too much time in order to find out the ingredients that you are going to use, and you can also find out the precise nutritional information before you actually buy the product. If you have an internet connection, you will certainly find a recipe to cook your food using honey – even with a low sugar content. When it comes to the shelf life of honey, it can last for over 2 years, if it is not exposed to heat and light, which can make it smell bad.
